

The references presented here may be used as a resource to assist applicants and assessors in preparation for accreditation. They are the most up-to-date version that is known to CPA at the time of posting.

CPA does not accept responsibility for any omissions or changes made to documents by other bodies.

The material included within this list comes from a wide variety of sources, some of which are mandatory and others advisory.

Scope

The references given below are grouped to correspond to the most appropriate sections of the standards. However, a reference may sometimes be applicable to more than one section of the standards. Where possible an ISBN number is given or a weblink provided.
